

Connectivity with Mercy Clinical Laboratory

MCL offers an integrated, electronic order entry and results solution

At Mercy Clinical Laboratory (MCL), we understand the practice of medicine extends beyond a simple office visit. You need to manage patient health and satisfaction efficiently and cost-effectively. MCL's Atlas Order Entry and Result Review solution helps improve your day-to-day workflow, allowing you more time to do what you do best – treat patients.

MCL's Atlas LabWorks system lets your order, view, manage and analyze lab results quickly and efficiently – anytime, anywhere.

ORDER ENTRY

- Ordering lab tests online provides easy to read specimen labels and test requests to accompany specimens to the lab.
- Check the online MCL test catalog for specimen requirements.
- Your patient database holds demographic and insurance information
- Electronic Medical Necessity checking and automatic ABN generation when needed.
- Send electronic orders to all MCL Draw stations (PSCs). No more lost patient orders.
- Print and review daily order summary.
- Add on tests through MCL Atlas orders.
- Capability to manage patients' standing orders and/or future orders.

RESULTS REVIEW

- Online result review displays specimen progress (i.e., in lab, partial, final).
- Results are available in Atlas as soon as the test is completed.
- Results display with color alerting normal, high, low and critical results.
- A lab result can display historical trends in a graphical display.
- Print test utilization by date or physician.
- Integration with EMR/LIS is available.
 - See a list of supported vendors at mercydesmoines.org/atlas
- MCL mobile available to providers to access results on a mobile device.
