

EMERGENCY TREATMENT

In the event that you are not with your child when an emergency situation occurs, you should know that your child cannot receive treatment without your consent. When leaving your child in the care of others, a signed release form will help your child avoid an unnecessary delay of treatment. Neither grandparents, neighbors, brothers nor

sisters can authorize medical care for your child. **Your written consent is required before your youngster can receive emergency treatment.** However, if a physician feels immediate treatment is necessary to prevent death or serious injury, treatment will begin.

To insure immediate medical attention for your child in your absence, complete this form and leave it with your child's caregiver.
