

Screening Mammography Scheduling Request Form

Thank-you for choosing Mercy for your Mammogram. We offer Digital Mammography at each of our three convenient locations (Ankeny, Clive, and Downtown Des Moines).

What is a Screening mammogram? A screening mammogram is for a woman who is age 40 or older, not having any problems or symptoms such as pain, nipple discharge, a lump, or skin dimpling. If you are having any of these types of symptoms, your mammogram must be ordered by your medical provider.

If you have had previous mammograms at a facility other than Mercy, please provide us with that information as we will need to request these images for comparison.

Preparation for your mammogram:

First, dress comfortably. A two-piece outfit is usually best because you will be asked to undress from the waist up. You should avoid using any types of deodorants, powders, ointments, lotions or creams on or around your breasts and underarms prior to your exam as they could affect the quality and accuracy of the exam (some contain chemicals that may show up on the images).

Cleansing wipes and deodorant will be available in your dressing room for use before and after your mammogram.
